

CS 598 MAAV Outline

- Mainly sensing, some control, some planning
 - for autonomous vehicles
- Vehicles
 - nothing excluded
 - we have access to a Polaris GEM
 - from AutonomousStuff
 - we may have access to a submarine hull
 - we have access to drones
- Structure (!?!)
 - mainly lecture
 - some paper presentations
 - some project practicals

CS 598 MAAV Outline

- Suitable for:
 - CS/ECE Grad students; CS/ECE Undergrads (independent minded)
 - with some experience
 - (AML; Vision; Computational Photog.;etc)
 - independent minded
 - Others
 - won't get much support with minor programming problems
 - limited structure
 - great fun
- Generally, we'll go through a lot of material quite fast
 - and quite superficially

CS598 MAAV - is this for me?

- First homework should help with that!
